

Alternate Reorganization of the State WIA Infrastructure, **Option 1**

ISSUE: Federal law states that the 95% that passes down from the state level to the counties cannot be used to pay for state-level activities. Option 1 would pay/reimburse state staff for performing state-mandated functions. This is not allowable.

Alternate Reorganization of the State WIA Infrastructure, **Option 2**

ISSUE: Federal law states that the 95% that passes down from the state level to the counties cannot be used to pay for state-level activities.

Option 2 would contract state staff at the One-Stop level to perform state-mandated functions.

This is not allowable, **and** it would significantly cut the amount of funding delivered to the neighbor island One-Stop Centers, from 85% of the total USDOL funds down to 74.3% (a loss of \$856,323).
